### DECLARATION ABOUT SUPPLEMENTARY AUDITING OR ADJUSTMENT MISSION

The managing board declares that the assignment neither regarding auditing nor adjusting has been given to a person who was not authorised by law pursuant to art. 34 and 37 of the Law of 22nd April 1999 concerning the auditing and tax professions.

The annual accounts have/ have not \* been audited or adjusted by an external accountant or auditor who is not a statutory auditor.

If YES, mention here after: name, first names, profession, residence-address of each external accountant or auditor, the number of membership with the professional Institute ad hoc and the nature of this engagement:

- A. Bookkeeping of the undertaking\*\*,
- B. Preparing the annual accounts\*\*,
- C. Auditing the annual accounts and/or
- D. Adjusting the annual accounts.

If the assignment mentioned either under A or B is performed by authorised accountants or authorised accountants-tax consultants, information will be given on: name, first names, profession and residence-address of each authorised accountant or accountant-tax consultant, his number of membership with the Professional Institute of Accountants and Tax consultants and the nature of this engagement.

Name, first name, profession, residence-address	Number of membership	Nature of the engagement (A, B, C and/or D)

<sup>\*</sup> Delete where appropriate.

<sup>\*\*</sup> Optional disclosure.

1001.

### INFORMATION RELATING TO CONSOLIDATED ACCOUNTS

# INFORMATION THAT MUST BE PROVIDED BY EACH COMPANY, THAT IS SUBJECT OF COMPANY LAW ON THE CONSOLIDATED ANNUAL ACCOUNTS OF ENTERPRISES

The enterprise has drawn up publiced a consolidated annual statement of accounts and a management report\*

The enterprise has not published a consolidated annual statement of accounts and a management report, since it is exempt for thisobligation for the following reason\*

The enterprise and its subsidiaries on consolidated basis exceed not more than one of the limits mentioned in art. 16 of Company Law\*

The enterprise itself is a subsidiary of an enterprise which does prepare and publish consolidated accounts, in which her yearly statement of accounts is included\*

If yes, justification of the compliance with all conditions for exemption set out in art. 113 par. 2 and 3 of Company Law:

Name, full address of the registered office and, for an enterprise governed by Belgian Law, the company number of the parent company preparing and publishing the consolidated accounts required:

### INFORMATION TO DISCLOSE BY THE REPORTING ENTERPRISE BEING A SUBSIDIARY OR A JOINT SUBSIDIARY

Name, full address of the registered office and, for an enterprise governed by Belgian Law, the company number of the parent company(ies) and the specification whether the parent company(ies) prepare(s) and publish(es) consolidated annual accounts in which the annual accounts of the enterprise are included\*\*

#### **XTRION NV**

Transportstraat 1

3980 Tessenderlo, Belgium

0878.389.438

The enterprise drawns up consolidated annual account data for the major part of the enterprise

If the parent company(ies) is (are) (an) enterprise(s) governed by foreign law disclose where the consolidated accounts can be obtained\*\*

<sup>\*</sup> Delete where no appropriate.

<sup>\*\*</sup> Where the accounts of the enterprise are consolidated at different levels, the information should be given for the consolidated aggregate at the highest level on the one hand and the lowest level on the other hand of which the enterprise is a subsidiary and for which consolidated accounts are prepared and published.

### SOCIAL REPORT

### VALUATION RULES

XX. VALUATION RULES

1. Formation expenses

The formation expenses are booked as an asset in the balance sheet at their purchase value less depreciation. Depreciation is applied under the straight line basis at 20% pro rata per annum.

#### 2. Tangible and intangible fixed assets

The tangible fixed assets are booked as an asset in the balance sheet at their purchase value or production cost if it concerns assets under construction.

Depreciation is applied under the straight line basis at the following percentages pro rata per annum:

Land and buildings 5%

Plant, machinery and equipment 10% - 20% Furniture and vehicles 10% - 20%

The intangible fixed assets are booked as an asset in the balance sheet at their purchase value or production cost if it concerns assets under construction. Licenses are depreciated under the straight line basis at 20% pro rata per annum.

3. Financial fixed assets

The participations are valued at the purchase value. In the event of permanent loss or depreciation, justified by the situation, profitability and prospects of the company in which the shares are held, impairment will be applied.

4. Cash at bank and in hand

These assets are valued at their nominal value.

5. Amounts receivable after more then 1 year and amounts receivable within one year.

The amounts receivable are booked at their nominal value. The amounts receivable in foreign currency are recorded in EUR at a fixed transfer rate on the date of the transaction and valued at the latest exchange rate. The exchange rate differences which result out of the valuation exercise are recorded in the income statement. Depreciation is applied when the realized value at the date of the financial year is less then the carrying amount.

6. Stocks

Raw materials and consumables are valued at the purchase value calculated according the FIFO method. The work in progress and finished goods are valued at production cost which comprises of direct and indirect costs. Depreciation is booked for unlisted items and when the realized value is less than the carrying amount.

#### 7. Provisions for liabilities and charges

The Board of Directors, with care, sincerity and good faith decision, examines the year-end provisions to be formed in order to cover:

" major repair and maintenance works

" other risks, if necessary

8. Amounts payable after more then one year and amounts payable within one year

Amounts payable are booked at their nominal value. Amounts payable in foreign currency are recorded in EUR at a fixed transfer rate on the date of the transaction and valued at the latest exchange rate. The exchange rate differences which result out of the valuation exercise are recorded in the income statement.

XXI. Related parties

1. Shareholders' structure and identification of major related parties

Melexis NV is the parent company of the Melexis group that includes following entities which have been consolidated:

Melexis Inc US entity Melexis Gmbh German entity Melexis Bulgaria Ltd. **Bulgarian entity** Melexis BV Dutch entity Melexis Ukraine Ukraine entity Melexis Technologies SA Swiss entity Melexis French branch French branch Sentron AG Swiss entity Melefin NV Belgian entity Melexis Tessenderlo NV Belgian entity Melexis Philippine branch Philippine branch Japanese Entity Melexis Japan Chinese branch Melexis Hong Kong Melexis Electronic Technology Co. Ltd Chinese entity

## VALUATION RULES

The shareholders of Melexis NV are as follows:

Since January 1st, 2006, Xtrion NV is the main shareholder of Melexis NV, as a result of the partial split of Elex NV into Elex NV and Xtrion NV. Xtrion NV owns 50,05 % of the outstanding Melexis shares . The shares of Xtrion are held directly and/or indirectly by Mr. Roland Duchâtelet, Mr. Rudi De Winter and Mrs. Françoise Chombar who are all directors at Melexis NV. Elex NV is 100 % owned by Roland Duchâtelet .

Xtrion NV owns 59 % of the outstanding shares of X-FAB Silicon Foundries NV, producer of wafers, which are the main raw materials for the Melexis products. X-FAB Silicon Foundries NV sells the majority of its products also to third parties.

Per December 31st, 2010, Elex NV owns 100% of the outstanding shares of EPIQ NV. Melexis sells products to EPIQ. For most of these products, EPIQ is used as subcontractor by some OEM customers of Melexis. Therefore, the business relation for these products is with the OEM customer and not with EPIQ.

Melexis, as in prior years, purchases part of its test equipment from the XPEQT Group. XPEQT Group develops, produces and sells test systems for the semiconductor industry. XPEQT Group is owned by Mr. Roland Duchâtelet (60 %) and Mrs. Françoise Chombar (40 %), CEO of Melexis NV.

During the year 2010 no transactions took place which can create a potential co

MELEXIS PLC PUBLIC LIMITED COMPANY ROZENDAALSTRAAT 12 8900 IEPER RLP 0435.604.729 COMPANY NR BE 435.604.729 Annual Report concerning the financial year ended at December 31, 2010

According legal requirements, we have the honor to report to you on the economic situation of the company concerning the financial year covering the period from January 1 2010 till December 31, 2010. This Annual Report and also the Annual Account will be made available to you.

1. Comments on the Annual Account

Turnover amounted to 66,1 Mio EUR in 2010. Total turnover increased by 80,60% compared to 2009.

The operating profit in 2010 amounted to 13,6 million EURO. The operating profit increased by 486.38% compared to last year mainly as a result of the increase in turnover and in comparison a smaller increase in the operating charges. These operating charges mainly consist of materials (raw materials and consumables), sub-contracting, salary costs, depreciation expenses and other operating charges. The increase in the operating charges can mainly be explained by a lower usage rate of the test facility which is the result of a decrease in sales in 2010.

#### 2. Appropriation of the result

The Board of Directors proposes to present the gain to be appropriated as follows:

- dividends 12.474.040
- transfer other reserves 498.517
- profit to be carried forward 2.456.452
- 3. Subsequent events

There are no subsequent events.

#### 4. Research and Development

The company spent approximately 1,83 million EUR (mainly capital expenditures and salary expenses).

5. Branch offices

The company has branch offices in Paris, France in Manila, Filipinas and in Hong Kong in China.

### 6. Corporate governance

The Audit Committee met twice during 2010.

The Company's Corporate Governance Charter is also available at the website of the company.

According to a new Directive, at least one independent member to the audit committee has to be experienced in accounting and audit. Both Jenny Claes and Steve Hix comply with this through their relevant work experience. We make also reference to the short biographies of the above mentioned members, mentioned below, to testify to their experience in accounting and audit.

Mr. Steve Hix is a high-technology entrepreneur, who is no stranger to building successful multi-million dollar companies from a modest start-up. He served the United States Navy during twenty-one years, including ten years as project design engineer for the Joint Chiefs Staff. His experiences are based on more than 30 years of managing and founding various successful (high-technology) companies like AdVan Media and Sarif.

Mr. Steve Hix is also founder and former CEO of InFocus Corporation, Co-Founder of Planar Systems Inc and has important management positions at Sigma Research Inc., Tektronix Inc. and Watkins Johnson. He is member of the National Academy of Sciences and Engineering, of the International Standards and Conformity Assessment, of the National Research Council and of the US Trade Policy Project Committee. In 1994, Mr. Hix was Technology Executive of the Year and in 1991 Northwest Entrepreneur of the Year.

Mrs. Jenny Claes has a long career in three different companies and was mainly active in the field of Logistics. This included responsibilities for commercial planning, production planning, warehousing, transport, international sales administration, ICT and quality management. She participated in the start up of the European Distribution Centre of SKF in Tongeren and held the position of General Manager of SKF Logistics Services Belgium from the end of 2003 till the end of 2008. She now holds the position of Manager Quality and Logistics Excellence of SKF Logistics Services worldwide. Mrs. Jenny Claes holds a Masters degree in International Trade. Ms Claes is also an independent director on the Board of NV Epiq, a company that is (in)directly controlled by Mr Roland Duchâtelet.

### 7. Purchase of own shares

No purchases of own shares were done during 2010. Total own shares at the end of 2010 amount to 1.661.726 representing a total value of EUR 17.542.076,88.

8. Importance conflicts

The Directors report that during 2009 there have been no transactions or decisions which fall within the scope of Article 523 and 524 of the Belgian Companies Code

9. Financial instruments

Melexis NV operates internationally, which could give an exposure to market risks from changes in interest and foreign exchange rates. Melexis NV uses derivative financial instruments to manage the foreign exchange risks, interest risks and inflation risks.

Risk management policies have been defined on group level, and are carried out by the local companies of the group.

#### (1)Credit risks

The group has no significant concentration of credit risk with any single counterparty or group of counterparties having similar characteristics. The group has a policy on business unit level to ensure that sales are only made to new and existing customers with an appropriate credit history.

### (2)Intrest rate risk

Melexis NV does use derivatives to manage interest rate risks of the outstanding bank debt. The risk is limited, since the average duration of the current interest-bearing financial assets is less than 3 years.

#### (3)Liquidity risk

Liquidity risk arises from the possibility those customers may not be able to settle obligations to the Company within the normal terms of trade. To manage the risk the Company periodically assesses the financial viability of customers.

All excess cash will be invested short term.

#### (4)Foreign exchange risk

The currency risk of the group occurs due to the fact that the group operates and has sales in USD. The group uses derivative contracts to manage foreign exchange risks.

In order to hedge exchange rate risks Melexis makes regular use of forward contracts. As of December 31, 2010, Melexis NV has no forward contracts outstanding.

#### (5)Inflation risk

Melexis NV uses derivative contracts to manage inflation risks. At 31/12/2010 Melexis has an inflation swap with a nominal value of EUR 3.6 million and a market value of 121.351 EURO. The due date is 01/02/2013.

## 10. Risks Related to the Company and her branch offices

An investment in Shares involves certain risks. Prior to making any investment decision, prospective purchasers of Shares should consider carefully all of the information set forth in this Annual Report and, in particular, the risks described below. If any of the following risks actually occur, the Company's business, results of operations and financial condition could be materially adversely affected. Except for the historical information in this Annual Report, the discussion contains certain forward-looking statements that involve risks and uncertainties such as statements regarding the Company's plans, objectives, expectations and intentions. The cautionary statements made in this Annual Report should be read as being applicable to all forward-looking statements wherever they appear in this Annual Report.

## 10.1. Risks Related to the Company

## Operating History; Inability to Forecast Revenues Accurately

The Company's business and prospects must be considered in light of the risks, uncertainties, expenses and difficulties frequently encountered by companies active in new and rapidly evolving markets, such as the semiconductor market. To address these risks and uncertainties, the Company must, among other things: (i) increase market share; (ii) enhance its brand; (iii) implement and execute its business and marketing strategy successfully; (iv) continue to develop and upgrade its technology; (vi) respond to competitive developments; and (vii) attract, integrate, retain and motivate qualified personnel. There can be no assurance that the Company will be successful in accomplishing any or all of these things, and the failure to do so could have a material adverse effect on the Company's business, results of operations and financial condition.

As a result of the rapidly evolving markets in which it competes, the Company may be unable to forecast its revenues accurately. The Company's current and future expense levels are based largely on its investment plans and estimates of future revenues. Sales and operating results generally depend on the volume and timing of, and ability to fulfill, orders received, which are difficult to forecast. The Company may be unable to adjust its expenditures in a timely manner to compensate for any unexpected revenue shortfall. Accordingly, any significant shortfall in revenues in relation to the Company's planned expenditures would have an immediate adverse effect on the Company may from time to time make certain pricing, service or marketing decisions that could have a material adverse effect on the Company's business, results of operations and financial condition.

### Currency fluctuations

The Company is subject to risks of currency fluctuations to the extent that its revenues are received in currencies other than the currencies of the Company's related costs. Fluctuations in the value of the Euro against an investor's currency of investment may affect the market value of the Shares expressed in an investor's currency. Such fluctuations may also affect the conversion into US dollars of cash dividends

and other distributions paid in Euros on the Shares.

#### Dependence on certain related companies

goods and services at a comparable cost

The Company depends on a number of related companies for certain aspects of the manufacture of its products and to supply unique equipment for testing its products.

Although the Company likely could obtain alternative manufacturing services and test equipment with a third party, in case the related company would cease the supply, in the short term this would cause a significant adverse effect on the activities of the Company It is also possible that the alternative test equipment is less effective for the activities of the Company and / or significantly more expensive than existing facilities as this equipment is made taken into account the specific requirements of the Company. It can not be guaranteed that the conditions under which the Company is currently receiving those alternative services can be matched by other suppliers. Nevertheless, the Company could re-organize, in the long term, the supply for capital goods so that they can obtain similar

For a detailed description of the associated companies, see the Annual Report -8.6.5.AC. Related parties;

#### Managing Growth

To manage future growth effectively, the Company must enhance its financial and accounting systems and controls, further develop its management information systems, integrate new personnel and manage expanded operations. The Company's failure to manage its growth effectively could have a material adverse effect on the quality of its products and services, its ability to retain key personnel and its business, operating results and financial condition.

#### **Risk of Potential Future Acquisitions**

As a part of its growth strategy, the Company regularly evaluates potential acquisitions of businesses, technologies and product lines. Announcements concerning potential acquisitions and investments could be made at any time.

Future acquisitions by the Company may result in the use of significant amounts of cash, potentially dilutive issues of equity securities, incurrence of debt and amortization expenses related to goodwill and other intangible assets, each of which could materially and adversely affect the Company's business, results of operation and financial condition or negatively affect the price of the Shares. Should the Company's future acquisitions operate at lower margins than those that exist for the Company's present services and products, they may further limit the Company's growth and place a significant strain on its business and financial resources. In addition, acquisitions involve numerous risks, including difficulties in the assimilation of the operations, technologies, products and personnel of the acquired company, the diversion of management's attention from other business concerns, risks of entering markets in which the Company has no, or limited, direct prior experience and potential loss of key employees of the acquired company. While the Company has had discussions with other companies, there are currently no commitments or agreements with respect to any potential acquisition, in the event that such an acquisition does occur, there can be no assurance that the Company's business, results of operations and financial condition, and the market price of the Shares, will not be materially adversely affected.

#### Dependence on Key Personnel; Ability to Recruit and Retain Qualified Personnel

The Company's performance is substantially dependent on the performance and continued presence of its senior management and other key personnel. The Company's performance also depends on the Company's ability to retain and motivate its other officers and employees. The loss of the services of any of the Company's senior management or other key employees could have a material adverse effect on the Company's business, results of operations and financial condition.

The Company's future success also depends on its ability to identify, attract, hire, train, retain and motivate other highly skilled technical, managerial, marketing and customer service personnel. Competition for such personnel is intense, and there can be no assurance that the Company will be able to attract, integrate or retain sufficiently qualified personnel. The failure to retain and attract the necessary personnel could have a material adverse effect on the Company's business, results of operations and financial condition.

### Products May Contain Defects.

The Company's products may contain undetected defects, especially when first released that could adversely affect its business. Despite rigorous and extensive testing, some defects may be discovered only after a product has been installed and used by customers. Any defects discovered after commercial release could result in (i) adverse publicity; (ii) loss of revenues and market share; (iii) increased service, warranty or insurance costs; or (iv) claims against the Company. Any of the foregoing could have a material adverse effect on the Company's business, results of operations and financial condition.

## **Evolving Distribution Channels**

The majority of sales to the large automotive accounts are generated by direct sales people. However, over time, increasingly more sales of ASSPs have been generated via the representative and distribution network of Melexis. As the majority of the Melexis ASSP products are unique, the end-customers are still dependent on Melexis and not on the representative or distributor that they are working with.

Every distributor or agent or distribution method may involve risks of unpaid bills, idle inventories and inadequate customer service. Any of the foregoing could have a material adverse effect on the Company's business, results of operations and financial condition.

## Protection and Enforcement of Intellectual Property Rights

Although the Company is currently not a party to any litigation involving intellectual property rights, the semiconductor industry is characterized by frequent claims alleging the infringement of patents and other intellectual property rights. Thus, in the future, the Company may receive communications or claims from third parties asserting patents or other intellectual property rights on certain technologies or processes used by the Company. In the event any third party claim were to be valid, the Company could be required to discontinue using certain processes or technologies or to cease the use and sale of infringing products, to pay damages and to acquire licenses to the allegedly infringed technology or develop non-infringing technologies. The Company's business, financial condition and results of operations could be materially and adversely affected by any such development.

The Company has already obtained patent protections and expects to file additional patent applications when appropriate to protect certain of its proprietary technologies. The Company also protects its proprietary information and know-how through the use of trade secrets, confidentiality agreements and other measures. The process of patent protection can be expensive and time-consuming. There can be no assurance that patents will be issued from applications or that, if patents are issued, they will not be challenged, invalidated or

circumvented, or that rights granted there under will provide meaningful protection or other commercial advantage to the Company. Likewise, there can be no assurance that the Company in the future will be able to preserve any of its other intellectual property rights.

## The Importance of Significant Customers

The two biggest customers of Melexis represent approximately 13% and 12% of the Company's revenues for the year ended December 31st, 2010. While at the moment of introduction of Melexis to the stock market in 1997, the top seven customers still accounted for 70 % of sales, the top ten customers for the year ended December 31st, 2010 only accounted for 63 % of sales. This decrease is mainly the result of the increased design of Application Specific Standard Products as opposed to customized products.

### Significant Shareholders

The main Shareholder holds 50,05% of the Company's issued and outstanding Ordinary Shares. As a result, this shareholder, through the exercise of his voting rights, has the ability to significantly influence the Company's management and affairs and all matters requiring shareholder approval, including the election of directors and approval of significant corporate transactions. In addition, some decisions concerning the Company's operations or financial structure may present conflicts of interest between the Company and this shareholder. For example, if the Company is required to raise additional capital from public or private sources to finance its anticipated growth and contemplated capital expenditures, its interests might conflict with those of these shareholders with respect to the particular type of financing sought. In addition, the Company may have an interest in pursuing acquisitions, divestitures, financings, or other transactions that, in management's judgment, could be beneficial to the Company, even though the transactions might conflict with the interests of this shareholder. Likewise, this shareholder has contractual and other business relationships with the Company from time to time. Although it is anticipated that any such transactions and agreements will be on terms no less favorable to the Company than it could obtain in contracts with unrelated third parties, conflicts of interest could arise between the Company and this shareholder in certain circumstances.

#### 10.2. Risks Related to the Business

#### The Semiconductor Market

The semiconductor industry is characterized by rapid technology change, frequent product introductions with improved price and/or performance characteristics, and average unit price erosion. These factors could have a material adverse effect on the Company's business and prospects

#### Intense Competition

The automotive semiconductor market is very different from other segments of the semiconductor market. In particular, technological requirements for automotive semiconductors differ significantly as automotive electronics must withstand extreme conditions, including very hot and cold temperatures, dry and humid weather conditions and an environment subject to dust, oil, salt and vibration. In addition and unlike the situation in other segments of the semiconductor market, the supply voltage to automotive semiconductors originating from a car's battery will vary strongly in practice (between 6.5 and 24 volts). As a result these factors make automotive semiconductor product design and, in particular, testing, difficult when compared with other semiconductor markets.

The Company currently competes with a number of other companies. These companies could differ for each type of product. The Company's competitors include, among others, Allegro Microsystems, Analog Devices, Elmos, Freescale, Honeywell Solid State Electronics, Infineon, Micronas, NEC Semiconductors, SGS-Thomson Microelectronics, and ST Microelectronics.

The Company believes that the principal competitive factors in its market are technological know-how, human resources, new product development, a close relationship with the leading automotive original equipment manufacturers and to a lesser extent with the car manufacturers.

Many of the Company's current and potential competitors have longer operating histories, greater brand recognition, access to larger customer bases and significantly greater financial, technical, marketing and other resources than the Company. As a result they may be able to adapt more quickly to new or emerging technologies and changes in customer requirements or to devote greater resources to the promotion and sale of their products than the Company.

There can be no assurance that the Company will be able to compete successfully against current and future competition. Further, as a strategic response to changes in the competitive environment, the Company may, from time to time, make certain pricing, service and marketing decisions or acquisitions that could have a material adverse effect on its business, results of operations and financial condition.

New technologies and the expansion of existing technologies may increase the competitive pressures on the Company by enabling its competitors to offer a lower-cost service or a better technology. There can be no assurance that any current arrangements or contracts of the Company will be renewed on commercially reasonable terms.

Any and all of these events could have a material adverse effect on the Company's business results of operations and financial condition.

## Rapid Technological Change

The semiconductor market is characterized by rapidly changing technology, frequent new product announcements, introductions and enhancements to products, and average unit price erosion. In the Automotive Semiconductor market the active product life cycle is approximately 5 to 10 years.

Accordingly, the Company's future success will depend on its ability to adapt to rapidly changing technologies, to adapt its products and services to evolving industry standards and to improve the performance, features and reliability of its products and services in response to competitive product and service offerings and evolving demands of the marketplace. The failure of the Company to adapt to such changes would have a material adverse effect on the Company's business, results of operations and financial condition.

### Risks Related to the Trading on Euronext

The trading price of the Company's Shares has been and may continue to be highly volatile and could be subject to wide fluctuations in response to factors such as actual or anticipated variations in the Company's quarterly operating results, announcements of technological innovations, or new services by the Company or its competitors, changes in financial estimates by securities analysts, conditions or trends in semiconductor industries, changes in the market valuations of companies active in the same markets, announcements by the Company or its competitors of significant acquisitions, strategic relationships, joint ventures or capital commitments, additions or departures of key personnel, sales of Shares or other securities of the Company in the open market and other events or factors, many of which are beyond

the Company's control. Further, the stock markets in general, and Euronext, the market for semiconductor-related and technology companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of such companies. These broad market and industry factors may materially and adversely affect the market price of the Company's Shares, irrespective of the Company's operating performance.

11. Approval Annual Account and discharge

Herewith the Annual Accounts for your approval which give a fair, complete and faithful representation of the activities that took place during the year ended on December 31, 2010. This report, the auditors' report and financial statements for the year ended December 31, 2010 were at your disposal.

We suggest you to discharge the Directors and Auditors BDO Bedrijfsrevisoren Burg. Ven., represented by Mr Gert Claes, for any liability which arises from the exercise of his duties during the past year.

The Board proposes the profit to be divided as included in the accompanying financial data.

Statutory auditor's report to the general meeting of shareholders on the financial statements for the year ended 31 December 2010

Free translation

# Statutory auditor's report to the general meeting of shareholders of Melexis NV on the financial statements for the year ended 31 December 2010

In accordance with the legal and statutory requirements, we report to you on the performance of the engagement of statutory auditor, which has been entrusted to us. This report contains our opinion on the true and fair view of the financial statements as well as the required additional statements and information.

### Unqualified audit opinion on the financial statements

We have audited the financial statements of Melexis NV for the year ended 31 December 2010, prepared in accordance with the financial reporting framework applicable in Belgium, which show a balance sheet total of 205.276.764 EUR and a profit for the year of 15.380.281 EUR.

Management is responsible for the preparation and the fair presentation of these financial statements. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the legal requirements and the Auditing Standards applicable in Belgium, as issued by the Institute of Registered Auditors (Institut des Réviseurs d'Entreprises / Instituut van de Bedrijfsrevisoren). Those standards require that we plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement, whether due to fraud or error.

In accordance with the above-mentioned auditing standards, we have carried out procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The selection of these procedures is a matter for our judgment, as is the assessment of the risk that the financial statements contain material misstatements, whether due to fraud or error. In making those risk assessments, we have considered the company's internal control relating to the preparation and fair presentation of the financial statements, in order to design audit procedures that were appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. We have also assessed the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by management, as well as the overall financial statement presentation.

Finally, we have obtained from management and the company's officials the explanations and information necessary for our audit. We believe that the audit evidence we have obtained provides a reasonable basis for our opinion.

In our opinion, the financial statements for the year 2010 ended 31 December 2010 give a true and fair view of the company's assets and liabilities, its financial position and the results of its operations in accordance with the financial reporting framework applicable in Belgium.

## Additional statements and information

The preparation of the Directors' report and its content, as well as the company's compliance with the Company Code and its bylaws are the responsibility of management.

Our responsibility is to supplement our report with the following additional statements and information, which do not modify our audit opinion on the financial statements:

- The Directors' report includes the information required by law and is consistent with the financial statements. We are, however, unable to comment on the description of the principal risks and uncertainties which the company is facing, and on its financial situation, its foreseeable evolution or the significant influence of certain facts on its future development. We can nevertheless confirm that the matters disclosed do not present any obvious inconsistencies with the information that we became aware of during the performance of our engagement.
- Without prejudice to formal aspects of minor importance, the accounting records were maintained in accordance with the legal and regulatory requirements applicable in Belgium.
- There are no transactions undertaken or decisions taken in violation of the company's bylaws or the Company Code that we have to report to you. The appropriation of results proposed to the general meeting complies with the legal and statutory provisions.
- An interim dividend was distributed during the year in relation to which we have issued the attached report in accordance with legal requirements.

Zaventem, April 1st, 2011

Verslag van de commissaris aan de Raad van Bestuur van Melexis NV over de staat van activa en passiva afgesloten per 30 juni 2010 opgesteld ter gelegenheid van de uitkering van een interimdividend

In het kader van ons mandaat van commissaris en overeenkomstig art. 618 van het Wetboek van vennootschappen, brengen wij hierbij verslag uit over de hierbij gevoegde staat van activa en passiva afgesloten per 30 juni 2010.

De raad van bestuur overweegt om een bruto interimdividend van 12.972.558 EUR uit te keren, hetzij 0,30 EUR per aandeel.

Artikel 38 van de gecoördineerde statuten verleent aan de raad van bestuur de bevoegdheid om een interimdividend uit te keren. Er zijn reeds meer dan zes maanden verlopen sinds de afsluiting van het voorgaande boekjaar en de jaarrekening over dat boekjaar werd door de Algemene Vergadering goedgekeurd.

Onze controles werden uitgevoerd onder de vorm van een beperkt nazicht daar onze werkzaamheden voornamelijk toegespitst waren op een onderzoek, vergelijking en bespreking van de financiële informatie om te kunnen uitmaken of het resultaat met de nodige voorzichtigheid vastgesteld werd.

Aangezien wij geen volkomen controle hebben uitgevoerd, geven wij geen verklaring over de staat van activa en passiva in zijn geheel.

De staat van activa en passiva vloeit zonder toevoeging of weglating voort uit de balans der rekeningen per 30 juni 2010.

Tot besluit verklaren wij dat wij geen aanwijzingen hebben gevonden die een belangrijke aanpassing vergen van de hierbij gevoegde staat van activa en passiva per 30 juni 2010, welke een uitkeerbare winst van 13.323.427 EUR vertoont.

De winst van het lopende boekjaar zoals deze blijkt uit de staat van activa en passiva per 30 juni 2010 is, met in acht name van de overgedragen winst en (de onbeschikbare reserves die krachtens wettelijke of statutaire bepalingen moeten worden gevormd), voldoende om een interimdividend zoals voorzien uit te keren.

28 september 2010 Zaventem,

BUO Bedrijfsrevisoren Burg. CVBA Commissaris Vertegenwoordigd door Gert Claes
